Description

A newly constructed eurasian perch, with the construction of underground parking. Apartments with full internal finishing, the designated bathrooms and sanitary knots (plumbing – Ideal Standart), built-in kitchens with AEG household appliances and built-in cabinets priekštepās. The complex developers is thought and taken care to complex population can live in harmony with nature, demonstrating the green thinking of the importance of our life. Because of the complex each house has its own plant names. Residential complex with complete infrastructure – urban city. This is the first of its kind project in Jurmala, which the developers attention brought on all the key domestic purposes, comfortable in their daily life, namely, healthy food purchased, home services, beauty, sports and relaxation. Mūsdienīgie apartment homes are comfortable, modern and cosy buildings with ergonomic apartments planning, underground parking with places for also bicycle parking, built roof terraces, and closed courtyards. The first floor apartments have fenced terrace, from where you can reach the apzaļumotā in the yard, while the upper floor apartment owners each with its own roof darzins – apzaļumota and sunny roof terrace. The roof garden serves as the home and the environment unifying theme, in addition, it is an opportunity for all of the house roof shared terrace, which is on each house roof, to hold the originals of the private measures. On the roof of a shared grill place with a fireplace, a small equipped kitchenette and sanitary, to home occupants and their guests of the events feel maximally comfortable. In this project, there are still other dziokļi with other prices. The offer is available apartments also in many other new projects from both developers and from individuals.
